Sea Sand to Be Assayed

Senator Fulton to Interest Geological Survey in the Project.

Dr. August Kinney, who has interested himself for years in gold deposits in the Clatsop beach sands, received a letter yesterday from Senator Fulton relating to the subject. Senator Fulton is interested in the matter, having been communicated with by Dr. Kinney, and submits a plan that is deemed very feasible by all who have heard of it. The plan is to have sand taken up by the dredge Chinook assayed every few weeks and in this way investigate thoroughly the practicability of separating the gold found. In order to have this done the senator will interest the United States geological survey and the engineering department with the idea so that the matter will be taken up and handled through the right channels. Dr. Kinney has faith in the project and believes that if it is gone after in the right manner good results will be realized. The same thing has been done on the Sacramento river, the dredges there being equipped with machinery specially designed to separate the gold from the sand.

While of the opinion that the sea sand does not contain as much gold as the beach sand, Dr. Kinney believes that an investigation in the manner proposed would be the best thing possible. It is well known that sand, both on the coast and at the head waters of the Columbia and in tributary streams, contains gold, but the trouble has always been to interest enough capital in the undertaking of showing whether it would pay to be separated. Now that there is a strong likelihood that the government will assist in probing the subject, it is a matter of congratulation to all concerned.

NOT A SICK DAY SINCE.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Baas, of Fremont, N. C. writes. Only 50c at Chas. Rogers, druggist.

C. H. Abercrombie Is a Self-Made Man, Educated for a Legal Career.

When the name of C. H. Abercrombie was placed in nomination for auditor and police judge at the recent convention, the young man was given an ovation that is seldom accorded by delegates so assembled. Mr. Abercrombie is distinctly an Astoria boy, having lived here for 20 years of his 25 years of life. He is known by everyone, is universally popular, and is appreciated for his many sterling qualities. He graduated from the Astoria high school in 1897 and after that worked his way through the law department of the university of Wisconsin. For years he was a popular clerk in A. V. Allen's store. Last year he returned to his home to commence the practice of law. He is a prominent member of the Commercial Club and for seven years has been affiliated with the Young Men's Republican Club.

The chief characteristic of Mr. Abercrombie is that work has no terrors for him. He is distinctly a self-made man, studying at every opportunity and working all the time. In the interval of his graduation from the high school and his entering up a law course at the university, Mr. Abercrombie studied law under C. W. Fulton what time he was not at his work in the store of A. V. Allen.

Mr. Abercrombie is a young man of keen legal mind and rare clerical ability, the qualities essential for the office of auditor and police judge.

My Dear Sirs—For several years I had been a sufferer from chronic disorder of the stomach. Could neither eat nor drink with comfort, and my stomach seemed to rebel against such food as other people enjoyed. It was some time after I learned of the virtues of Medical Lake in cure of such cases before I consented to try the water, for the reason that I had no faith in it. But persistent friends finally prevailed and I commenced using the water. Much to my surprise immediate improvement followed, and in incredibly short time was entirely well. Since then I eat what best pleases me and no further trouble is experienced.
